PROFILE

The moment I laid hands on a computer I knew that this was my purpose. Web Development has been my passion for years. When it comes to the latest technological advances, I am always up to date. Below are projects that showcase my skills and background in developing software.

SKILLS

- o Web Development
- o JavaScript / ES6
- o Computer / IT
- o UI/UX Design

EDUCATION

Responsive Web Design

Free Code Camp
Developer Certification

JavaScript Algorithms and Data Structures

Free Code Camp
Developer Certification

User Experience Design Essentials - Adobe XD

Udemy
UI / UX Design
2017 - 2020

EXPERIENCE

Cup Kayz Web App | www.cupkayz.com

Developed a Responsive E-Commerce Web App utilizing HTML5, CSS3, and JavaScript programming languages. Web App supports deliveries, which uses Google Maps API to generate pinpointed locations. Every delivery can be confirmed prior to each checkout.

Battle Ship Web App | www.loremIpsm.com

Based on the classic Battleship game, this application was designed in raw JavaScript code (no libraries). It manipulates the DOM elements to output the app onto an HTML5 canvas element.

Relies on both event handling and the use of objects.
